

Dr. Roxanna Rahban is a clinical and forensic neuropsychologist specializing in psychological and neuropsychological evaluations for adults and children. She serves as an expert witness for civil and criminal cases and is appointed as a psych/neuropsychological evaluator (PACE#PSY25245) on the LA Superior Court Expert Panel and Los Angeles Dependency Lawyers Expert Panel. She is most often appointed as a psych expert for mental health diversion cases and neuropsychological evaluations.

Dr. Rahban received her B.A. with honors from UCLA and Ph.D. with honors from UC Santa Barbara. She has extensive training in neuropsychological assessment and empirically-supported treatments related to traumatic brain injuries, ADHD, learning disabilities, mood and psychiatric disorders, trauma/PTSD, suicidal and self-injurious behaviors, aggressive and defiant behaviors. Dr. Rahban's research has been focused on malingering, effort testing, neuropsychological and personality assessment, and neurocognitive disorders. She has lectured on a variety of topics at conferences throughout the country and has published various articles and chapters. During her free time, she enjoys art/design, baking, running, and spending time with family and friends.
